## Associate Software Engineer

Chennai, India | [munuhari33@gmail.com](mailto:munuhari33@gmail.com) | +91 9944790298 | [LinkedIn](#) | [Portfolio](#)

### PROFILE SUMMARY

Software Engineer with 1.5 years of professional experience in frontend development, specializing in responsive email templates using HTML5, CSS3, and JavaScript. Strong foundation in Java, Spring Boot, Spring Security, RESTful APIs, MySQL, and Angular, with hands-on experience building scalable full-stack applications. Proficient in Data Structures and Algorithms, OOP, and modern development practices. Eager to contribute as a Java Developer or Full Stack Developer.

### PROFESSIONAL EXPERIENCE

#### Associate Software Engineer, Webberax, Chennai

Dec 2024 - Jun 2026

- Developed responsive, cross-browser compatible email templates using HTML5, CSS3, and JavaScript for global email marketing campaigns.
- Converted UI designs into pixel-perfect, mobile-friendly templates while ensuring compatibility across major email clients.
- Optimized email layouts for improved rendering performance and accessibility; performed testing and debugging across devices.
- Collaborated with designers, QA engineers, and stakeholders to deliver marketing campaigns within deadlines.
- Maintained reusable template structures and adhered to coding standards for efficient development.

### TECHNICAL SKILLS

**Programming:** Java, SQL

**Frameworks/Libraries:** Spring Boot, Spring Security, Hibernate, Spring Data JPA, Angular

**Architecture & Concepts:** RESTful APIs, MVC, OOP, Data Structures and Algorithms (DSA)

**Auth & Security:** JWT Authentication, Role-Based Access Control (RBAC)

**Database:** MySQL, RDBMS, ORM Mapping, Database Normalization

**Tools & Practices:** Git, GitHub, Maven, Postman, IntelliJ IDEA, Eclipse, SDLC

### PROJECTS

#### Business Management System - Java Full Stack

*Technologies: Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, Angular, TypeScript, JWT, MySQL, Maven, REST APIs*

- Designed and developed a full-stack business management application to streamline employee, inventory, and order management workflows using Spring Boot and Angular.
- Frame Works & Libraries:** built RESTful APIs for managing employees, departments, inventory, invoices, and customer orders following clean, modular architecture.
- Implemented secure authentication and RBAC using Spring Security and JWT to manage Admin, Manager, and Staff access levels.
- Developed a responsive Angular front end with reusable components and reactive forms for data entry, validation, and reporting.
- Designed normalized relational database schemas in MySQL and used Hibernate/Spring Data JPA for efficient data interaction.
- Implemented CRUD, search, and filtering features; tested REST APIs using Postman following SDLC best practices.

### ACHIEVEMENTS

- Built an enterprise-grade Java Full Stack project.
- Strong foundation in DSA and REST API development.
- Experience with secure authentication and clean architecture.

### LANGUAGES

- Tamil
- English

### SOFT SKILLS

- Problem Solving
- Team Collaboration
- Communication
- Time Management

### EDUCATION

**B.E. - Computer Science and Engineering,** EGS Pillay Engineering College, Nagapattinam

Aug 2020 - Apr 2024

**SSLC and HSC - Maths and Computer Science,** Govt. Higher Secondary School, Sankaranpandal

Jun 2017 - Apr 2020
